

As an individual who is deaf, I oppose any revisions or repeal of the rules related to disability related telecommunications. Please leave all disability-related rules intact. I am particularly concerned about Telecommunications Relay Services, access to Interactive Voice Response Systems, digital cell phone TTY compatibility, and Section 255. As a deaf person, provision of these services enable my family and myself to be independent and not have to depend on others to perform these functions for us.

The FCC should leave the disability related telecommunications/technology regulations fully intact unless they are strengthened. These regulations are needed to protect our rights to fully and equitably access the telecommunications network.

Sincerely,

Sheila Conlon Mentkowski
